EXPERIENCE

Oct. 2013 - Present | STARTUP INSTITUTE, Product & Design Track

Accepted into an intensive eight-week career accelerator to develop skills in HTML, CSS, jQuery and Javascript, along with diving deeper into user-centered design, navigation & flow, rapid prototyping / wireframing and responsive design.

Currently working for Dear Kate, a women's fashion startup, conducting user-centered research and designing website prototypes in order to increase traffic and drive higher conversion rates. Also working with Klooff, a Techstars Spring '13 graduate, leveraging their unique market and social reach of six million impressions per month to attract unconventional partnerships for the holiday season.

Jun. 2011 - Jul. 2013 | SAGENT ADVISORS, Investment Banking Analyst

Focused on M&A, private capital raises and general strategic advisory in Technology and Healthcare. Honed skills in financial modeling & analyses, project management, business strategy, and industry research. Sole analyst on three sell-side M&A transactions in Internet, Enterprise Software and Medical Devices.
